CLI Commands

Rich Snippets Suite for Magento 2

Command line tools for the Rich Snippets Suite extension.

Available Commands

Command	Description
`richsnippet:selftest`	Run diagnostic checks on configuration

richsnippet:selftest

Validates your Rich Snippets configuration and checks for common issues.

```
bin/magento richsnippet:selftest
```

What It Checks

- Module enabled status
- Required configuration settings
- Schema generation capability
- Database connectivity
- Local Business entries (if enabled)
- Shipping Details entries (if enabled)

Example Output

```
Rich Snippets Suite - Selftest
==============================

[OK] Module is enabled
[OK] Store Information configured
[OK] Product Schema enabled
[OK] Website Schema enabled
[OK] Breadcrumbs enabled
[OK] 3 Local Business entries found
[OK] 5 Shipping Details entries found

All checks passed!
```

When to Use

Run the selftest:

- After initial installation
- After configuration changes
- When troubleshooting issues
- Before contacting support
