magmodules

CLI Commands

TikTok Marketing Suite for

Command line tools for managing the TikTok Marketing Suite.

Available Commands

Command	Description
`magmodules-tiktok:generate-feed`	Generate product feed
`magmodules-tiktok:process-queue`	Process Events API queue
`magmodules-tiktok:sync-order`	Sync historical orders
`magmodules-tiktok:cleanup`	Clean up old logs and queue data

Generate Feed

Generate the product feed for TikTok Catalog.

```
bin/magento magmodules-tiktok:generate-feed
```

Options:

Option	Description
`--store-id=ID`	Generate for specific store view only

Examples:

```
# Generate feed for all enabled stores
bin/magento magmodules-tiktok:generate-feed

# Generate feed for store view ID 2 only
bin/magento magmodules-tiktok:generate-feed --store-id=2
```

When to use:

- Initial feed setup
- After major product data changes
- When cron is not running
- To test feed generation

Process Queue

Process pending Events API events.

```
bin/magento magmodules-tiktok:process-queue
```

What it does:

- Finds all events with status "pending"
- Sends each event to TikTok Events API
- Updates status to "success" or "failed"

When to use:

- When cron is delayed
- To immediately send events
- After fixing configuration issues
- To reprocess after token update

Sync Order

Sync historical orders to TikTok for Purchase events.

```
bin/magento magmodules-tiktok:sync-order
```

Options:

Option	Description
`--order-id=ID`	Sync specific order by ID
`--from-date=DATE`	Sync orders from date (YYYY-MM-DD)
`--to-date=DATE`	Sync orders until date (YYYY-MM-DD)

Examples:

```
# Sync specific order
bin/magento magmodules-tiktok:sync-order --order-id=100000123

# Sync orders from last 30 days
bin/magento magmodules-tiktok:sync-order --from-date=2024-11-01
```

```
# Sync orders in date range
bin/magento magmodules-tiktok:sync-order --from-date=2024-11-01 --to-date=2024-11-30
```

When to use:

- Initial module setup (sync historical data)
- After enabling Events API on existing store
- To backfill missing Purchase events

Cleanup

Remove old feed logs and processed queue entries.

```
bin/magento magmodules-tiktok:cleanup
```

What it does:

- Removes old entries from Data Feed Logs
- Removes processed events from Processing Queue
- Keeps recent data for troubleshooting

When to use:

- Regular maintenance
- When grids become slow
- To free up database space

Common Workflows

Initial Setup Testing

```
# 1. Generate feed and check output
bin/magento magmodules-tiktok:generate-feed

# 2. Process any queued events
bin/magento magmodules-tiktok:process-queue
```

After Configuration Change

```
# Regenerate feed with new settings
bin/magento cache:flush
bin/magento magmodules-tiktok:generate-feed
```

Backfill Historical Data

```
# Sync last 90 days of orders
bin/magento magmodules-tiktok:sync-order --from-date=2024-09-01
```

Maintenance

```
# Clean up old data
bin/magento magmodules-tiktok:cleanup
```
