

**bol.**

Orders Grid

Bol.com Integration for Magento 2

The Orders Grid shows all orders imported from Bol.com. Use it to monitor order imports, create Magento orders, and track the status of marketplace orders.

Location: Bol.com → Data → Orders

Columns

Column	Description
Bol OrderId	Original order ID from Bol.com
Account	Bol.com seller account the order belongs to
Magento OrderId	Linked Magento order increment ID (clickable)
Products	Products in the order
Total Quantity	Total quantity ordered (hidden by default)
Total Items	Number of different items (hidden by default)
Pickup Point	Whether order is for pickup point delivery
Shipping Address	Customer shipping address
Billing Address	Customer billing address (hidden by default)
Placed At	When the order was placed on Bol.com
Imported At	When the order was imported
Updated At	Last update timestamp
Error	Error message if order creation failed
Order Status	Magento order status (if created)
Status	Import/processing status

Toolbar Buttons

Button	Description
Import Orders	Import all new orders from Bol.com

Button	Description
Import Orders Incremental	Import only recent orders
Create Orders	Create Magento orders from imported Bol orders

Mass Actions

Select multiple orders and use:

Action	Description
Delete	Delete selected orders from the grid
Skip	Mark orders to skip (won't be processed)
Unskip	Remove skip flag from orders
Create Magento Order	Create Magento orders from selected Bol orders

How Orders Enter This Grid

Orders flow through two stages:

Stage 1: Import from Bol.com

1. Cron runs "Import Orders" job
2. New orders are fetched from Bol.com API
3. Orders appear in this grid with status "New"

Stage 2: Create in Magento

1. Cron runs "Create Orders" job
2. Imported orders are converted to Magento orders
3. Status changes to "Processed" with Magento OrderId linked

Requirements:

- Account must have order import enabled
- "Import Orders From" date must be set
- Products must be findable by EAN/identifier

Status Explained

Status	Meaning
New	Imported from Bol.com, not yet processed
Processing	Currently being converted to Magento order
Processed	Successfully created in Magento
Error	Failed to create - check Error column
Skipped	Manually marked to skip

Manual Order Processing

To manually import and create orders:

1. Click **Import Orders** to fetch new orders from Bol.com
2. Review imported orders in the grid
3. Select orders to process
4. Use mass action **Create Magento Order**

Or via CLI:

```
bin/magento magmodules-bol:import-orders
```

Tips

- Check **Error** column for failed orders to understand what went wrong
- Use **Skip** for test orders or orders you don't want to process
- Click on **Magento OrderId** to jump directly to the Magento order
- Filter by **Status** to see orders needing attention
- Import runs automatically via cron - manual import is for immediate processing
