Getting Started

Google Business Reviews for Magento 2

This guide gets you up and running with Google Business Reviews in just a few minutes. You'll connect your Google Business location, import your reviews, and display them on your store.

Before You Begin

Make sure you have:

- Google Business Profile with reviews
- Google Business Location ID (Place ID)
- Magento 2.3.x or 2.4.x installation
- Admin access to your Magento store

Step 1: Add Your Location

1. Go to **Marketing → Google Reviews → Locations**
2. Click **Add New Location**
3. Enter your Google Business details:
    - **Name**: A friendly name (e.g., "Main Store Amsterdam")
    - **Place ID**: Your Google Place ID
4. Click **Save**
5. The connection status will show "Connected" if successful

Finding Your Place ID

1. Go to Google's Place ID Finder
2. Search for your business
3. Copy the Place ID

Step 2: Enable the Extension

1. Go to **Stores → Configuration → Magmodules → Google Reviews**
2. In the **General** section:
    - Set **Enabled** to "Yes"
3. In the **Locations** section:
    - Select your location(s) to use
4. Click **Save Config**

Step 3: Import Reviews

Reviews are imported automatically via cron, but you can trigger the first import manually:

Option A: Via Admin

- Go to **Marketing → Google Reviews → Reviews**
- Click **Sync Reviews** button

Option B: Via CLI

```
bin/magento shopreview:googlereviews:sync --all
```

Step 4: Display Reviews

Enable the Review Page

1. Go to **Stores → Configuration → Magmodules → Google Reviews → Frontend**
2. Set **Enable** to "Yes"
3. Configure your page title and meta description
4. Save and clear cache

Your reviews will be available at: `yourstore.com/googlereviews/`

Add a Widget

1. Go to **Content → Widgets → Add Widget**
2. Select **Google Reviews Widget** or **Google Reviews Slider**
3. Choose your design theme
4. Configure widget options (including location filter)
5. Set where the widget should appear
6. Save and clear cache

Verify Everything Works

Run the self-test to check your configuration:

```
bin/magento shopreview:googlereviews:selftest
```
