

## Widget Configuration

Google Business Reviews for Magento 2

This guide covers all available widgets in [Google Business Reviews](#). Widgets let you display your Google reviews anywhere in your store - from simple badges to full review carousels.

## Available Widgets

---

| Widget                 | Description  |
|------------------------|--|
| <b>Review Widget</b>   | Flexible widget with Sidebar, Small, Plain, and Custom modes |
| <b>Slider Widget</b>   | Sliding review carousel with themes                          |
| <b>Floating Widget</b> | Fixed-position badge on screen edge                          |
| <b>Badge Widget</b>    | Compact rating display                                       |
| <b>Carousel Widget</b> | Rotating review display                                      |
| <b>Overview Widget</b> | Full review listing with filters                             |
| <b>Sidebar Widget</b>  | Compact vertical review display                              |
| <b>Textual Widget</b>  | Text-focused rating display                                  |

## Adding Widgets

---

1. Go to **Content** → **Elements** → **Widgets**
2. Click **Add Widget**
3. Select widget type (e.g., "Google Reviews Slider")
4. Select your **Design Theme**
5. Click **Continue**

## Storefront Properties

---

After creating a widget, configure where it appears:

| Setting                      | Description                                  |
|------------------------------|--|
| <b>Widget Title</b>          | Admin reference name                         |
| <b>Assign to Store Views</b> | Which store views display this widget        |
| <b>Sort Order</b>            | Display priority when multiple widgets exist |

| Setting        | Description                                |
|----------------|--|
| Layout Updates | Where the widget appears (page, container) |

## Adding Layout Updates

1. Click **Add Layout Update**
2. Select **Display on**: All Pages, Specific Page, or Page Type
3. Select **Container**: Where on the page (e.g., Main Content Area, Sidebar)
4. Click **Save**

## Location Filtering

---

All widgets support the **reviews\_from\_locations** parameter to filter reviews by Google Business location. This is useful for multi-location businesses showing location-specific reviews.

## Slider Widget Setup

---

The Slider Widget is the most popular choice for showcasing reviews. Here's a detailed setup guide.

### Step 1: Create the Widget

1. Go to **Content** → **Elements** → **Widgets**
2. Click **Add Widget**
3. Select **Type**: Google Reviews Slider
4. Select your **Design Theme**
5. Click **Continue**

### Step 2: Configure Storefront Properties

1. Enter a **Widget Title** (e.g., "Homepage Review Slider")
2. Select **Store Views**
3. Set **Sort Order** if needed
4. Add a **Layout Update**:
  - Display on: e.g., "Specified Page" → "CMS Home Page"
  - Container: e.g., "Main Content Area"

### Step 3: Widget Options

| Parameter                     | Description                              |
|-------------------------------|--|
| <b>Theme</b>                  | Default, Extended, or Full Width         |
| <b>Title</b>                  | Heading displayed above the slider       |
| <b>Show Summary Block</b>     | Display aggregate rating (stars + count) |
| <b>Total Reviews</b>          | Number of reviews to load (e.g., 15)     |
| <b>Visible Reviews</b>        | Reviews shown at once (e.g., 3)          |
| <b>Reviews per Scroll</b>     | How many scroll per click                |
| <b>Review Text Length</b>     | Small, Medium, or Large                  |
| <b>Filter Reviews</b>         | Latest or Max Rating                     |
| <b>Show Dots</b>              | Navigation dots below slider             |
| <b>Show Arrows</b>            | Left/right navigation arrows             |
| <b>Autoplay</b>               | Auto-advance slides                      |
| <b>Autoplay Speed</b>         | Milliseconds between slides (e.g., 3000) |
| <b>Custom Breakpoints</b>     | Responsive configuration                 |
| <b>Reviews from Locations</b> | Filter by specific location(s)           |

## Responsive Breakpoints

Use **Custom Breakpoints** to control how many reviews show at different screen sizes:

```
480=1;768=2;1024=3
```

This means:

- Below 480px: 1 review visible
- 480-768px: 2 reviews visible
- Above 1024px: 3 reviews visible

## Review Widget

Multi-mode widget with various display options.

| Parameter                     | Description                          |
|-------------------------------|--------------------------------------|
| <b>Widget Mode</b>            | Sidebar, Small, Plain, or Custom     |
| <b>Display Reviews</b>        | Show/hide review text (Sidebar mode) |
| <b>Display Slider</b>         | Enable sliding (Sidebar mode)        |
| <b>Number of Reviews</b>      | How many reviews to show             |
| <b>Filter Reviews</b>         | Latest or Max Rating                 |
| <b>Reviews from Locations</b> | Filter by location                   |

## Floating Widget

---

Fixed-position badge that stays visible while scrolling.

| Parameter                     | Description              |
|-------------------------------|--------------------------|
| <b>Reviews from Locations</b> | Filter by location       |
| <b>Show Google Icon</b>       | Display Google logo      |
| <b>Show Review Link</b>       | Link to write a review   |
| <b>Show Reviews</b>           | Review display option    |
| <b>Widget Position</b>        | Screen position          |
| <b>Show on Mobile</b>         | Mobile visibility        |
| <b>Show on Checkout</b>       | Checkout page visibility |

## Badge Widget

---

Compact rating badge for prominent placement.

| Parameter                     | Description         |
|-------------------------------|---------------------|
| <b>Reviews from Locations</b> | Filter by location  |
| <b>Show Logo</b>              | Display Google logo |
| <b>Show Stars</b>             | Display star rating |

| Parameter               | Description           |
|-------------------------|-----------------------|
| <b>Show Review Link</b> | Link to reviews       |
| <b>Show Reviews</b>     | Review display option |

## Carousel Widget

---

Rotating review display with customizable appearance.

| Parameter                     | Description            |
|-------------------------------|------------------------|
| <b>Reviews from Locations</b> | Filter by location     |
| <b>Show Icon</b>              | Display Google icon    |
| <b>Show Stars</b>             | Display star rating    |
| <b>Select Color</b>           | Custom star color      |
| <b>Show Navigation Arrows</b> | Arrow controls         |
| <b>Autoplay</b>               | Auto-advance           |
| <b>Total Reviews</b>          | Number of reviews      |
| <b>Text Length</b>            | Review text truncation |
| <b>Sort By</b>                | Review ordering        |

## Overview Widget

---

Full review listing page with filtering capabilities.

| Parameter                       | Description                |
|---------------------------------|----------------------------|
| <b>Reviews from Locations</b>   | Filter by location         |
| <b>Show Rating Filter</b>       | Allow filtering by stars   |
| <b>Show Summary Block</b>       | Aggregate rating display   |
| <b>Show First and Last</b>      | First/last review preview  |
| <b>Show Write Review Button</b> | Link to Google review page |

| Parameter           | Description          |
|---------------------|----------------------|
| Show Sorting Option | Review sort controls |

## Sidebar Widget

---

Vertical review display for sidebar placement.

| Parameter              | Description             |
|------------------------|-------------------------|
| Reviews from Locations | Filter by location      |
| Show Logo in Header    | Header Google logo      |
| Show Stars in Header   | Header star rating      |
| Select Color           | Custom color            |
| Show Stars per Review  | Individual review stars |
| Show Navigation Arrows | Arrow controls          |
| Autoplay               | Auto-advance            |
| Total Reviews          | Number of reviews       |
| Text Length            | Review text truncation  |
| Sort By                | Review ordering         |

## Textual Widget

---

Text-focused compact rating display.

| Parameter              | Description         |
|------------------------|---------------------|
| Reviews from Locations | Filter by location  |
| Show Icons             | Display icons       |
| Show Stars             | Display star rating |

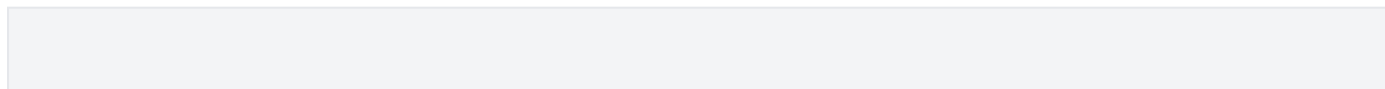

## Adding Widgets via WYSIWYG

---

You can also add widgets directly in CMS pages or blocks:

1. Edit a CMS page or block
2. Click **Insert Widget** in the editor toolbar
3. Select the widget type
4. Configure options
5. Click **Insert Widget**
