

Widgets

Shopreviews.com for Magento 2

Display your aggregated reviews throughout your site with the [Shopreviews.com](https://shopreviews.com) widgets. Three widget types are available for different display needs.

Available Widgets

Widget	Best For
Textual Box	Simple text display with optional stars
Carousel	Rotating review slider
Badge	Compact score display

Creating a Widget

1. Go to **Content** → **Widgets**
2. Click **Add Widget**
3. Select widget type (see below)
4. Select your **Design Theme**
5. Click **Continue**
6. Configure **Storefront Properties**
7. Add **Layout Updates** for placement
8. Configure **Widget Options**
9. Click **Save**

Textual Box Widget

Simple text-based display showing review summary and optional stars.

Widget Options

Option	Description
Website(s)	Select which Shopreviews.com website to display
Show Stars	Display star rating visual
Enable Modal Link	Make widget clickable to open review modal

Option	Description
Modal Type	Type of modal to display when clicked
Maximum Number of Reviews	Reviews shown in modal (when enabled)

Use Cases

- Footer trust indicator
- Sidebar summary
- Header trust badge
- Product page social proof

Recommended Settings

Footer Placement:

- Show Stars: Yes
- Enable Modal Link: Yes
- Max Reviews: 10

Carousel Widget

Rotating slider showing individual reviews with auto-scroll capability.

Widget Options

Sort By	Order reviews (Newest/Highest Rated/etc.)

Use Cases

- Homepage featured reviews section
- Landing page testimonials
- Category page trust builder
- About Us page social proof

Recommended Settings

Homepage Feature:

- Show Review Summary: Yes
- Show Sources: Yes
- Autoplay: Yes
- Show Arrows: Yes
- Show Dots: Yes
- Total Slides: 10
- Text Length: Medium
- Sort By: Newest

Sidebar Carousel:

- Full Width: No
- Show Review Summary: No
- Total Slides: 5
- Text Length: Short

Badge Widget

Compact badge showing overall score, ideal for persistent display.

Widget Options

Option	Description
--------	-------------

Website(s)	Select which Shopreviews.com website to display
Badge Location	Position style of the badge
Show Score	How to display the score (numeric, stars, etc.)
Enable Modal Link	Make badge clickable to open review modal
Modal Type	Type of modal to display when clicked
Maximum Number of Reviews in Modal	Reviews shown when modal opens

Use Cases

- Floating corner badge
- Header trust indicator
- Footer persistent badge
- Checkout page trust signal

Recommended Settings

Floating Badge:

- Badge Location: Bottom Right
- Show Score: Numeric with Stars
- Enable Modal Link: Yes
- Max Reviews in Modal: 15

Layout Placement

Common Placements

Location	Widget Type
Homepage	Carousel (main), Badge (floating)
Product Pages	Textual Box (sidebar), Badge
Category Pages	Carousel (below products)
Footer	Textual Box, Badge
Checkout	Badge (trust signal)

Layout Update Examples

All Pages - Footer:

- Display on: All Pages
- Container: Footer

Homepage Only:

- Display on: Specified Page → CMS Home Page
- Container: Main Content Area

Product Pages:

- Display on: Anchor Categories
- Container: Sidebar Additional

Modal Functionality

When **Enable Modal Link** is enabled:

- Widget becomes clickable
- Opens overlay with review details
- Shows specified number of reviews
- Allows scrolling through more reviews

Modal Types

Different modal presentations available:

- List view
- Card view
- Compact view

Choose based on your theme and display needs.

Website Selection

The **Website(s)** option determines which Shopreviews.com website's reviews to display:

- Select single website for focused display
- All reviews from selected website are aggregated

- Different widgets can show different websites

Styling Considerations

Theme Compatibility

Widgets inherit basic theme styling but include their own CSS:

- Star colors may need theme adjustment
- Modal styling matches Magento default
- Carousel uses standard slider behavior

Responsive Design

All widgets are responsive:

- Carousel reduces slides on mobile
- Badge repositions appropriately
- Textual box stacks on small screens

Custom Styling

To customize widget appearance:

1. Override CSS in your theme
2. Use widget-specific CSS classes
3. Adjust via theme LESS/SCSS files

Performance

Caching

Widget content is cached:

- Updates appear after cache refresh
- Consider cache lifetime for fresh reviews
- Use Varnish/FPC for best performance

Loading

- Widgets load with page content
- Modal content loads on click
- Carousel preloads adjacent slides

Multiple Widgets

You can use multiple widgets on the same page:

- Different types for different areas
- Same type with different configurations
- Different websites per widget

Example setup:

- Badge: Floating on all pages
- Carousel: Homepage main content
- Textual Box: Product page sidebar

Troubleshooting Widgets

Widget Not Showing

1. Verify widget is saved
2. Check Layout Updates configuration
3. Ensure reviews are synced
4. Clear cache
5. Check theme compatibility

Modal Not Opening

1. Check JavaScript console for errors
2. Verify Enable Modal Link is Yes
3. Clear browser cache
4. Test in incognito mode

Wrong Reviews Showing

1. Verify correct Website selected
2. Check review sync status

3. Confirm Sort By setting
