

Configuration

Shopreviews.com for Magento 2

Complete configuration reference for the [Shopreviews.com](#) extension. All settings are found under

Shopreviews.com → Config → Settings.

General

Basic extension settings and account connection.

Setting	Description
Enabled	Enable or disable the extension
Account Information	Displays your Shopreviews.com connection status and account details

The account information section shows:

- Connection status
- Linked websites
- Available review sources

Shopreviews Overview Page

Configure a dedicated page to display all your reviews.

Basic Settings

Setting	Description
Enable	Enable the review overview page
URL Path	URL path for the page (e.g., <code>reviews</code> creates <code>yourstore.com/reviews</code>)
Website	Select which Shopreviews.com website to display reviews from

Filters

Enable filtering options for visitors:

Setting	Description
Rating Filter	Allow filtering reviews by star rating
Years Filter	Allow filtering reviews by year

Setting	Description
Sources Filter	Allow filtering reviews by platform source

Layout Settings

Setting	Description
Title	Page title displayed in browser and on page
Meta Description	SEO meta description for the page
Meta Keywords	SEO meta keywords
Layout	Page layout template (1 column, 2 columns, etc.)
Add Google Structured Data	Add JSON-LD markup for Google rich results
Reviews per page	Number of reviews before pagination

SEO Considerations

- Set a descriptive **Title** including your store name
- Write a compelling **Meta Description** (150-160 characters)
- Enable **Structured Data** for potential rich results in search
- Choose appropriate **Layout** for your theme

Automation

Configure automatic review synchronization.

Setting	Description
Enable	Enable cron-based automatic sync
Frequency	How often to sync (Every hour, Every 6 hours, etc.)
Custom Frequency	Custom cron expression (when Frequency is set to Custom)

Frequency Options

- **Every hour** - Most up-to-date, higher server load
- **Every 6 hours** - Good balance for most stores

- **Every 12 hours** - Lower frequency for less active review sources
- **Daily** - Once per day sync
- **Custom** - Define your own cron schedule

Custom Cron Expression

When using custom frequency, enter a standard cron expression:

```
* * * * *
| | | | |
| | | | └─ Day of week (0-7, Sunday=0 or 7)
| | └─── Month (1-12)
| └──── Day of month (1-31)
└────── Hour (0-23)
└──────── Minute (0-59)
```

Examples:

- `0 */6 * * *` - Every 6 hours
- `0 5,17 * * *` - At 5 AM and 5 PM daily
- `0 3 * * *` - Daily at 3 AM

Debug

Development and troubleshooting settings.

Setting	Description
Debug Logging	Enable detailed logging for troubleshooting

Enable debug logging only when troubleshooting issues. Disable in production to prevent log file growth.

Configuration Workflow

Initial Setup

1. Enable the extension in **General**
2. Verify account connection
3. Enable **Automation** with appropriate frequency
4. Wait for first sync to complete

5. Verify reviews in admin grid

Adding Review Page

1. Enable in **Shopreviews Overview Page**
2. Set URL path
3. Configure filters as needed
4. Set SEO meta information
5. Enable structured data
6. Clear cache
7. Test the page

Optimization

After initial setup:

- Adjust sync frequency based on review volume
- Fine-tune filters based on customer usage
- Monitor structured data in Google Search Console

Best Practices

Sync Frequency

- **High review volume:** Every hour or 6 hours
- **Moderate volume:** Every 12 hours
- **Low volume:** Daily

Review Page

- Enable all filters for better user experience
- Use descriptive meta information for SEO
- Keep reviews per page at 10-20 for performance
- Enable structured data for search visibility

Performance

- Don't sync more frequently than needed
- Disable debug logging in production

- Use appropriate reviews per page setting
